

## SANITARY SS STRAIGHT ROUND TANK TRAILER

Brenner is an industry leader in providing solutions for transport of food products. From improvements to our earliest TPU products, to new tanks designed in partnership with our customers, Brenner delivers.

### FIT-UP

Tank heads are made in-house, one at a time, to ensure a close tolerance circumferential fit, yielding extended tank life.

### AUTOMATED MANIPULATOR WELDING

Brenner's exclusive welding manipulators affix rings with precise automatic welds, for consistent quality.

### SEAM WELDING

Brenner's CNC plasma seam welders reduce heat, improving surface smoothness.

## SANITARY SS

STRAIGHT ROUND QUAD AXLE TANK TRAILER

### SUSPENSION

Brenner Tank and our manufacturing partners utilize vigorous testing to ensure our chassis yield the best possible reliability.

### LONGMEMBER

Brenner's upper frame longmembers extend to the shell, greatly improving structural integrity.

## FOOD GRADE SS

SPECIALTY TANK TRAILER

Brenner and their customer partners share the vision of maximizing deliverable payload. Brenner is able to work with you to design custom solutions for your specific needs.

### PLANISHING

Brenner's unparalleled experience in planishing vessel seams ensures your tanks will have finished thicknesses well above DOT minimums.
